INTERAVIA

World Review of Aviation and Astronautics

INDEX TO VOLUME XV - 1960

No. 1 1960, Position and Heading
Flying Oddities

No. 2 Missile Roll-Call
Flight Safety Equipment

No. 3 Fifteen Months of Jet Operations
Single-Seat Combat Aircraft. F-105D Weapons System

No. 4 Telecommunications
Mirage III C Weapons System
West Germany's Aircraft Industry

GENERAL SUBJECTS

No. 5 Long Runways... For How Long? The V/STOL Solution

No. 6 Aerial Work
Fiumicino Airport, Rome—The German Air Show

No. 7 Missile Platforms in the Stratosphere
Northrop N-156F Rapiere
Sweden's Aircraft Industry

No. 8 Freight: Money-Maker for Tomorrow?
Canadair CL-44 Freighter/Transport
Short SC.1 Experimental VTOL Aircraft

No. 9 By RAF Vulcan to Malaya
Background to Farnborough 1960
SAS Plays Host to IATA
Saab Draken Weapons System

No. 10 Salt Water Strategy
Farnborough Highlights

No. 11 Investment in Space... First Dividends
Grumman Mohawk - Inertial Navigation

No. 12 Air Traffic Control
Vienna-Schwechat Airport
INTERKAMA 1960

INDEX BY SUBJECTS

The first number after each title refers to the issue, the second number to the page

International Organizations

ICAO

International Cooperation in Airspace Control—L. Piollet: 3/337
International Disharmony Over Navigational Aids—H. H. B. Capes: 4/490

IATA

The 13th IATA Technical Conference at Lucerne—J. Méline: 7/868
On the Eve of Copenhagen—Å. Rusck: 9/1083
IATA, Fair and Square—D. Dempster: 9/1093
Production Planning and Control in the Airlines—R. B. Ferris: 9/1105
Whither World Air Transport? (IATA Annual General Meeting): 11/1406

Political

Washington: Budget Storms Ahead: 2/139
Government and Aircraft Industry are Partners—S. Hershey: 3/253
The British White Paper on Defence: 3/254
Streamlining Britain's Aircraft Industry: 3/288
Three Budgets: One Objective: 4/392
The Manned Bomber... Key to Deterrent Strategy and Disarmament Proposals: 7/807
France, Too, Has Her Defence White Paper: 10/1203
Farnborough: Mirror of Britain's Defence Policy—L. M. Chassin: 10/1281

Civil Aviation

No Milk and Honey for El Al: 1/21
Jet Transport in 1960—M. Hymans: 1/32
Civil Aviation in the West—D. Dempster: 1/32
Soviet Civil Aviation and its Future—Y. Loginov: 1/36
A Passenger Converts to Jets—E. K. Barnes: 1/77
The TWA Flight Training Center: 1/78
Airliner Certification Principles—R. E. Hardingham: 2/140
Wings Over Latin America (International Training Centre)—L. Boussard: 2/195
To Chile by Comet—R. G. Ruddick: 2/198
Air Routes in the Soviet Union—V. Bashkirov: 2/211
Aeroflot's Technical Services—I. Malyuga: 2/214
SABRE—A Jet Age Reservations System: 2/217
New Transports in the New World: 3/272
BOAC Flies British: 3/276
The Rationalization of Air Traffic Control in Europe (Eurocontrol): 4/445
Dr. Berchtold on Protectionism in Air Transport: 5/536
Opening the Polar Jet Service—G. Février: 5/611
Even Half a Percent Would Help: 8/925
Increasing Capacity, Competition and Confusion for Air Cargo—S. H. Brewer: 8/927
Heavy Freighters of Tomorrow: 8/931
The Old Stalwarts: 8/935
Converting Outdated Passenger Aircraft—L. M. Chassin: 8/938
ATC in General and its Special Problems in the Geneva Area—M. A. Treyer: 12/1492
Trans-Atlantic Jet Flight—E. K. Barnes: 12/1503
Flight Plan, Clearance, Separation—The Work of the Air Traffic Controller—D. Ebert: 12/1506

Service Aviation

An Arsenal for Lasting Peace—P. M. Gallois: 1/40
"SAC" Strategic Aerospace Command—L. D. Clay: 2/150
The U.S. Air Force's First Satellite Wing: 2/164
France's Missile Programme—L. M. Chassin: 2/165
The British White Paper on Defence: 3/254
Single Seat Combat Aircraft—Attack is the Best Form o Defence: 3/305
Three Budgets: One Objective: 4/392
V/STOL is the Order of the Day—L. M. Chassin: 5/553
Interceptor Missiles for the Air Defence of North America: 5/574
VTOL Projects on Either Side of the Atlantic: 7/789
The Manned Bomber... Key to Deterrent Strategy and Disarmament Proposals: 7/807
A Rejuvenation Treatment for Subsonic Bombers—P. M. Gallois: 7/808
Sky Bolt, Blue Steel and the "V" Bombers—D. H. Wood: 7/814
Soviet Ideas on Nuclear Strategy—E. Biörklund: 7/819
A Visit to the Swedish Aircraft Industry and Air Force—E. Baur: 7/836
A Covey of Modern Missiles—L. M. Chassin: 7/857
Vulcan's Apprentice—E. K. Barnes: 9/1058
From the Ocean Deeps to Infinite Space: 10/1221
The Royal Navy and the Aircraft Carrier—D. H. Wood: 10/1222
The Pilot's Problems of Deck Operations—D. J. Whitehead: 10/1225
The Navy Aloft: 10/1228
Retailoring the French Naval Air Arm—L. M. Chassin: 10/1236
The Threat from the Ocean Depths (ASW): 10/1249
Rocket Bombs versus Submarines (*Terne*): 10/1256
The Aircraft Carrier is Still a Trump Card: 10/1258
The Air Force Association Convention: 11/1350
Two-Stage Training, or Three?—D. Harvey: 12/1553

Aerial Work

Air Photography and Aerial Survey—H. Kasper: 6/676
Air Survey in Switzerland—E. K. Barnes: 6/682
Tools for Air Survey and Map-Making: 6/684
Institut Géographique National Flight Service—E. Baur: 6/686
Photographic Reconnaissance—L. M. Chassin: 6/688
Bush Flying in Canada—H. M. Willmot: 6/699
The Aircraft for the Job: 6/702
A Helping Hand in Agriculture and Forestry: 6/704
Aircraft in the Service of the Collective Farm—P. N. Chulkov: 6/706

Commercial Aircraft

YS-11: Six Japanese Companies Build an Airliner: 1/100
Flying the DHC-4 *Caribou*—A. Verrico: 2/181
American Business Aircraft 1960: 2/183
The Breguet *Intégral* STOL Aircraft: 2/221
Three Rear-Mounted Jets... the Airco DH.121: 3/290
Potez 840: 3/343
Interview with Georges Héreil (*Caravelle*): 4/391
A German Proposal for a Medium-Haul Jet: The HFB 314: 4/484
Heavy Freighters of Tomorrow: 8/931
Canadair's Solution: The Swing-Tail CL-44D: 8/951
Umbaugh 18: A Rotorcraft for the Man in the Street?: 12/1519

Military Aircraft

Flight Testing the X-15: 1/57
The Bristol T.188 Research Aircraft: 1/102
The Republic F-105D Weapons System: 3/311
The Dassault *Mirage IIIC* Weapons System: 4/463
Convair B-58 *Hustler* Supersonic Combat Aircraft: 7/825
The Northrop N-156F Weapons System: 7/828
G.95—A Fiat STOL Project: 8/981
The Short SC.1 VTOL Research Aircraft: 8/982
The Saab *Draken* Weapons System: 9/1117
The Transall C.160: 9/1156
American Naval Trio (A3J, A2F, F4H): 10/1233
Grumman *Mohawk*... the Army's Flying Scout: 11/1402

Guided Missiles, Rocketry and Astronautics

An Arsenal for Lasting Peace—P. M. Gallois: 1/40
Exploring Space—The Immediate Goals: 1/49
Flight Testing the X-15: 1/57
Rockets as Boosters for the Aircraft Industry: 2/149
Missile Roll-Call: 2/152
An ICBM on its Trajectory: 2/155
Ablation Beats the Heat Barrier (GE re-entry vehicle): 2/159
A One-Man Anti-Tank Weapon (Bö 810): 2/162
The U.S. Air Force's First Satellite Wing: 2/164
France's Missile Programme—L. M. Chassin: 2/165
Rockets, Missiles and Space Vehicles: 3/286, 5/613, 6/740, 8/978, 9/1141, 12/1528
Sunnyvale: a Study in Cooperation: 4/471
Interceptor Missiles for the Air Defence of North America: 5/574
Controllable Solid Rockets for Space Vehicles—K. R. Stehling: 6/745
A Rejuvenation Treatment for Subsonic Bombers—P. M. Gallois: 7/808
Sky Bolt, Blue Steel and the "V" Bombers—D. H. Wood: 7/814
A Covey of Modern Missiles—L. M. Chassin: 7/857
Manned Earth Satellites: 7/860
Cold War in Infinite Space: 11/1367
The International Academy of Astronautics—Th. von Kármán: 11/1368
Identification Parade for Space Vehicles: 11/1368
Saturn—Backbone of the U.S. Space Programme: 11/1370
NASA's Ten-Year Programme: 11/1379
Earth Satellites in the Service of Meteorology: 11/1380
Tiros I Weather Satellite: 11/1383
"Cyclone-Prints" from Satellite (*Tiros I*)—S. Fritz: 11/1384
A Radio Reflector in Space—*Echo I*: 11/1386
Electrical Propulsion Systems for Spacecraft: 11/1388
Return to Earth: 11/1395
Catalogue of the Space Age II: 11/1398
Lunar Landing Problems—K. R. Stehling: 11/1428
From Science Fiction to Space Law: 11/1431

Powerplants

Atomic Reactors as Powerplants for Space Vehicles: 1/54
The Ducted Fan—G. M. Lewis: 1/63
Engines for VTOL Vehicles: 1/97
Postsputnik Era (nuclear propulsion): 1/98
XLR 115—A Liquid Hydrogen Rocket Engine: 2/168
The Rolls-Royce Conway: 3/341
Controllable Solid Rockets for Space Vehicles—K. R. Stehling: 6/745
Electrical Propulsion Systems for Spacecraft: 11/1388

Navigation and Communications

Towards Better Pilot Aids: 1/64
Navigation Equipment for Swissair's Jets—H. Krähenbühl: 3/278
Synthetic Radar Training: 3/329
International Cooperation in Airspace Control—L. Piollet: 3/337
Controlled Economy in the Ether: 4/409

New Radio Communications for Aviation—W. Stanner: 4/410
Decca/Dectra Data Links: 4/411
Automatic Communications Equipment: 4/412
Correcting the Inadequacies of Long-Distance Air-Ground Communications—E. W. Pappenfus: 4/414
A Good Servant to Air Transport (SITA)—L. M. Chassin: 4/425
Air Traffic Control in Soviet Civil Aviation—Y. Verezotsky: 4/427
Spanning Sea and Sands (IAL)—D. H. Wood: 4/429
The Rationalization of Air Traffic Control in Europe: 4/445
The Boom in Business Aircraft in the USA—A. W. Parkes: 4/449
Ferranti *Airpass II* and CSF *Cyrano*: 4/467
New Surveillance Radars for Paris Control Centre and Airports: 5/601
A Practical Approach to Automatic Instrument Landing—F. H. Battle: 5/606
A Canadian Doppler System: 6/736
Automatic Flare-Out and the VC.10—F. H. Bevan: 8/975.
Telefunken Mobile Radar Systems: 8/977
The Basic Principles of Pressure Pattern Navigation—W. Partl: 8/986
The Case for the Flight Data Recorder—"Albatross": 9/1144
Press-Button Piloting (LIFE)—E. K. Barnes: 10/1294
Automatic Commutated Antenna D/F Systems (Rohde & Schwarz): 12/1510
Video Map Equipment—S. Severini & T. Lazzari: 12/1548
The Czechoslovak PCK-55 Jet Training Simulator—J. Svanda: 12/1570

Non-Electronic Aircraft Equipment

Safety and Survival Equipment Today: 2/185
The Advantages of an Angle of Incidence Indicator—A. Boisson: 7/842
Recent Products of the Equipment Industry: 7/845
Recent SFIM Products: 8/985

Airports and Airport Equipment

Airport Surface Detection Equipment—A. Robertson: 3/331
Manhattan's Second Heliport: 4/490
Schiphol's Fortieth Anniversary: 5/577
Fiumicino and Airport Policy—G. Togni: 6/711
Recent Products of the Equipment Industry: 7/845
New Italian Airports: 7/863
Eyes on the Ground: 8/934
Idlewild, the Booming Airport City: 8/959
Vienna-Schwechat Airport—K. Prochazka: 12/1521
Dubai-New Desert Airport—G. R. Stroud: 12/1526

Research and Technical

Space Research is a Sound Investment—J. Ackeret: 1/49
Exploring Space—The Immediate Goals: 1/49
Aerodynamics in the New Decade—B. P. Laight: 1/61
Postsputnik Era (nuclear propulsion): 1/98
XLR 115—A Liquid Hydrogen Rocket Engine: 2/168
Time Will Tell: 3/335
V/STOL—Survey of Short and Vertical Take-off Aircraft: 5/556
Jet Lift for Supersonics—D. Keith-Lucas: 5/565
V/STOL and the Ground Support Aircraft—R. S. Hooper: 5/567
The Development of the Aerodyne—A. M. Lippisch: 5/569
Controllable Solid Rockets for Space Vehicles—K. R. Stehling: 6/745
Manned Earth Satellites: 7/860
Take-Off Weight 1,000,000 Pounds? (Nuclear Freighter): 8/907
The Short SC. 1 VTOL Research Aircraft: 8/982
On Wings of Steel (Materials for Bristol T.188): 9/1159
Space Sciences Advance on a Broad Front (11th IAF Congress)—K. Prochazka: 10/1297
Saturn—Backbone of the U.S. Space Programme: 11/1370
NASA's Ten-Year Programme: 11/1379
Electrical Propulsion Systems for Spacecraft: 11/1388
The English Electric Four-Foot Wind Tunnel—P. J. Midgley: 12/1565

Industry

Streamlining Britain's Aircraft Industry: 3/288
Interview with Georges Héreil *(Caravelle)*: 4/391
Republic Lands in Amsterdam: 4/391
Sunnyvale: a Study in Cooperation: 4/471
An Industry in Search of Its Future (W. Germany)—K. Regelin: 4/474
F-104G—A Joint European Programme: 4/483
Aviolanda's Woensdrecht Repair Plant: 5/580
The U.S. Aircraft Industry at the Cross-Roads—S. Hershey: 6/646
A Visit to the Swedish Aircraft Industry and Air Force—E. Baur: 7/836
Wall Street Watches the Missile Manufacturers—S. Hershey: 9/1023
Curtain Raiser to Farnborough (British Aircraft Industry)—H. Rieck: 9/1065
Initiative in Europe—F. R. Banks: 10/1279
The Jet Age and the Balance Sheets—S. Hershey: 12/1473
France's Aircraft Industry 1959/60: 12/1474

Electronics in Industry

A Plain Man's Guide to Computer Techniques: 1/88
Midas, a Flight Data Recorder: 1/92
SABRE—A Jet Age Reservations System: 2/217
Fire Control for Ship's Anti-Aircraft Artillery (Nuova San Giorgio): 2/219
Capacities and Limitations of Electronic Computers—A. S. Johnston: 5/603
Photo-Reconnaissance by Radio: 6/734
Computing and the Aeronautical Industries—R. J. Gomperts and E. B. Naschke: 6/738
Avionics—A Technician Looks at the Present and Future—C. B. Bovill: 9/1146

Biographical and Historical

Schiphol's Fortieth Anniversary: 5/577
Fifty Years of de Havilland Flights: 9/1080
The Nordic Triad in Air Transport (SAS): 9/1082

Exhibitions and Congresses

The Leipzig Fair: 5/592
The 1960 German Air Show: 6/727
Farnborough:
Foreword to Farnborough—Harold Watkinson and Peter Thorneycroft: 9/1057
Curtain Raiser to Farnborough—H. Rieck: 9/1065
Farnborough: Mirror of Britain's Defence Policy—L. M. Chassin: 10/1281
The Products and Projects of a Streamlined Industry: 10/1287
The Eleventh IAF Congress at Stockholm—K. Prochazka: 10/1297
INTERKAMA 1960: 12/1543

Miscellaneous

Technology, Servant and Master: 1/31
"Odd" Aircraft: 1/80
The First Three Months: A Promising Start: 3/271
Notes from the Flight Deck—"Albatross": 3/323, 4/489
Long Runways—For How Long?: 5/553
Did the "Josephine Ford" Reach the North Pole?—G. H. Liljequist: 5/589
The E. E. Heiman Prize: 6/645, 10/1185
Wanted: A New Strategic Concept and Orders for Industry: 6/675
Thermals, Sailplanes and Pilots: 7/866
An *Interavia* Air Freight Experiment: 8/949
The *Porter* on Top of the World—E. Saxer: 8/956
Pilot Training on a Leash (Jaycopter): 9/1158

Index of Tables

Missile Roll-Call: 2/153
Aircraft and Engines Manufactured under Licence and Maintained by the West German Industry: 4/481
U.S. Aviation Stocks, Capital, Dividends, Prices etc.: 5/535
The Old Stalwarts (Present-day freight aircraft): 8/936
Curtain Raiser to Farnborough (British aircraft): 9/1078
Pillars of World Air Transport (IATA members): 9/1094
Table of Aircraft Carriers: 10/1260
Catalogue of the Space Age II: 11/1398

INDEX BY AUTHORS

Ackeret, J. — Space Research is a Sound Investment: 1/49
"Albatross." — Notes from the Flight Deck: 3/323, 4/489; The Case for the Flight Data Recorder: 9/1144

Banks, F. R. — Initiative in Europe: 10/1279
Barnes, E. K. — A Passenger Converts to Jets: 1/77; Air Survey in Switzerland: 6/682; Vulcan's Apprentice: 9/1058; Press-Button Piloting (LIFE): 10/1294; Trans-Atlantic Jet Flight: 12/1503
Bashkirov, V. — Air Routes in the Soviet Union: 2/211
Battle, F. H. — A Practical Approach to Automatic Instrument Landing: 5/606
Baur, E. — Institut Géographique National Flight Service: 6/686; A Visit to the Swedish Aircraft Industry and Air Force: 7/836
Bevan, F. H. — Automatic Flare-Out and the VC.10: 8/975
Björklund, E. — Soviet Ideas on Nuclear Strategy: 7/819
Boisson, A. — The Advantages of an Angle of Incidence Indicator: 7/842
Boussard, L. — Wings Over Latin America (International Training Centre): 2/195
Bovill, C. B. — Avionics—A Technician Looks at the Present and Future: 9/1146
Brewer, S. H. — Increasing Capacity, Competition and Confusion for Air Cargo: 8/927

Capes, H. H. B. — International Disharmony Over Navigational Aids: 4/490
Chassin, L. M. — France's Missile Programme: 2/165; A Good Servant to Air Transport (SITA): 4/425; V/STOL is the Order of the Day: 5/553; The Camera: A Silent Weapon: 6/688; A Covey of Modern Missiles: 7/857; Converting Outdated Passenger Aircraft: 8/938; Retailoring the French Naval Air Arm: 10/1236; Farnborough: Mirror of Britain's Defence Policy: 10/1281
Chulkov, P. N. — Aircraft in the Service of the Collective Farm: 6/706
Clay, L. D. — "SAC" Strategic Aerospace Command: 2/150

Dempster, D. — Civil Aviation in the West: 1/32; IATA, Fair and Square: 9/1093

Ebert, D. — Flight Plan, Clearance, Separation — the Work of the Air Traffic Controller: 12/1506

Ferris, R. B — Production Planning and Control in the Airlines: 9/1105
Février, G. — Opening the Polar Jet Service: 5/611
Fischel, E. M. — Inertial Navigation Systems: 11/1422
Fritz, S. — "Cyclone Prints" from Satellites: 11/1384

Gallois, P. M. — An Arsenal for Lasting Peace: 1/40; A Rejuvenation Treatment for Subsonic Bombers: 7/808
Gomperts, R. J. — Computing and the Aeronautical Industries: 6/738

Hardingham, R. E. — Airliner Certification Principles: 2/140
Hershey, S. — Government and Aircraft Industry are Partners: 3/253; The U.S. Aircraft Industry at the Cross-Roads: 6/646; Wall Street Watches the Missile Manufacturers: 9/1023; The Jet Age and the Balance Sheets: 12/1473
Hooper, R. S. — V/STOL and the Ground Support Aircraft: 5/567
Hymans, M. — Jet Transport in 1960: 1/32

Johnston, A. S. — Capacities and Limitations of Electronic Computers: 5/602

von **K**arman, Th. — The International Academy of Astronautics: 11/1368
Kasper, H. — Air Photography and Aerial Survey: 6/676
Keith-Lucas, D. — Jet Lift for Supersonics: 5/565
Krähenbühl, H. — Navigation Equipment for Swissair's Jets: 3/278

Laight, B. P. —Aerodynamics in the New Decade: 1/61
Lazzari, T. — Video Map Equipment: 12/1548
